From Requirements to Shipment

Clear and complete product requirements help WRAPLUME prepare a precise, project-based quotation.

**01**

Product Type

Choose the suitable packaging type for your application.

02

Size & Material

Confirm size, material grammage, paper color and finishing.

03

Artwork & Sample

Provide artwork files and request a sample for approval.

04

Production

Production follows confirmed details and quality requirements.

05

Shipment

Goods are packed securely and shipped on schedule.

Information Required for Quotation

- Product type (paper bag, paper box, paper cup, etc.)
- Size specification (Width x Gusset x Height)
- Material type and paper weight (GSM)
- Paper color (white / kraft / custom)
- Artwork files (AI / PDF) and printing colors
- Quantity (pcs)
- Application / usage scenario
- Destination country or port
- Packing requirements and special requests

Our Manufacturing Approach

01 CUSTOM PRODUCTION

Customized production tailored to your brand and business needs.

02 MATERIAL SELECTION

Food-grade paper and paperboard options selected for each application.

03 PRINTING

Flexographic printing for clean, consistent brand presentation.

04 CONFIRMED DETAILS

All specifications confirmed according to your project requirements.
